

North Central Michigan College Master Course Syllabus

PART 1:

Course Name: Internship/Project

Course Number: CIS 280

Credit Hrs. 3 Lecture Hrs. Lab Hrs. 0 Clinical Hrs. 12 Variable Hrs.

Total Hours of Instruction: 12 Total Contact Hours: 211.2
(Total Contact hour's formula: (lecture hrs. + lab hrs. + clinical hrs) x 17.6)

Course Description:

Students will develop an information system from its investigation phase through analysis, design, implementation, installation and review.

Prerequisite (s): Students must complete all CIS program requirements with at least a 2.75 GPA and arrange scheduling of this course with the CIS advisor at least one semester prior to enrollment.

Co-requisite (s): none

Course Objectives:

- Gain a working knowledge of a computer information system.
- Be able to troubleshoot the network and maintain the network.
- Interact professionally with site staff and supervisors.
- Complete task log and final evaluation with clinical coordinator and employer representatives.

Reasonable accommodations can be provided for students with documented disabilities. Please contact Learning Support Services to arrange for these (231)348-6687 or (231)348-6817, Room 533 SCRC.

Master Course Syllabus

PART 2:

Lumina DQP outcomes and linked course objectives

(Please identify all Lumina DQP outcomes supported by this course, including the complete language of each outcome as shown on Part 3 of this syllabus. Under each Lumina DQP outcome, please list any course objectives that support the prior DQP outcome.)

- Lumina DQP Outcome 2: Illustrates contemporary terminology used in the field.
 - Course Objective: Complete task log and final evaluation with clinical coordinator and employer representatives.

- Lumina DQP Outcome 3: Generates substantially error-free products, reconstructions, data, juried exhibits or performances as appropriate to the field.
 - Course Objective: Gain a working knowledge of a computer information system.
 - Course Objective: Complete task log and final evaluation with clinical coordinator and employer representatives.

- Lumina DQP Outcome 6: Illustrates core concepts of the field while executing analytical, practical or creative tasks.
 - Course Objective: Interact professionally with site staff and supervisors

- Lumina DQP Outcome 10: Identifies, categorizes and distinguishes among elements of ideas, concepts, theories and/or practical approaches to standard problems.
 - Course Objective: Gain a working knowledge of a computer information system.
 - Course Objective: Be able to troubleshoot the network and maintain the network.

- Lumina DQP Outcome 11: Identifies, categorizes, evaluates and cites multiple information resources necessary to engage in projects, papers or performance in his or her program.
 - Course Objective: Gain a working knowledge of a computer information system.

- Lumina DQP Outcome 13: Presents accurate calculations and symbolic operations, and explains how such calculations and operations are used in either his or her specific field of study or in interpreting social and economic trends.
 - Course Objective: Interact professionally with site staff and supervisors

- Lumina DQP Outcome 15: Describes in writing at least one substantial case in which knowledge and skills acquired in academic settings are applied to a challenge in a non-academic setting; applies that learning to the question; and analyzes at least one significant concept or method related to his or her course of study in light of learning outside the classroom.
 - Course Objective: Complete task log and final evaluation with clinical coordinator and employer representatives.

North Central Michigan College

Master Course Syllabus

- Lumina DQP Outcome 16: Locates, gathers and organizes evidence on an assigned research topic addressing a course-related question or a question of practice in a work or community setting; offers and examines competing hypotheses in answering the question.
 - Course Objective: Gain a working knowledge of a computer information system.
 - Course Objective: Complete task log and final evaluation with clinical coordinator and employer representatives.
- Lumina DQP Outcome 19: Takes an active role in a community context (work, service, co-curricular activities, etc.), and examines the civic issues encountered and the insights gained from the community experience.
 - Course Objective: Gain a working knowledge of a computer information system.
 - Course Objective: Interact professionally with site staff and supervisors

North Central Michigan College Master Course Syllabus

Suggested Methods of Instruction:

Placed in work environment directly tied to student's career
Work with a mentor and assist them in daily activities.

Suggested Methods of Assessment and Evaluation:

Log book of experiences
Summary paper 4 to 6 pages
Evaluation form from employer
Participation in on-line assignments

Adopted Text at Time of Course Adoption/Revision: NA

Topics Covered During the Semester: NA

Sequence of topics and time allowance are at the discretion of the instructor

Master Course Syllabus

PART 3:

Use this reference sheet in Part 2 of Master Course Syllabus

Specialized Knowledge

1. Describes the scope and principal features of the field of study, citing at least some of its core theories and practices, and offers a similar explication of at least one related field.
2. Illustrates contemporary terminology used in the field.
3. Generates substantially error-free products, reconstructions, data, juried exhibits or performances as appropriate to the field.

Broad Integrative Knowledge

4. Describes how existing knowledge or practice is advanced, tested and revised
5. Describes and examines a range of perspectives on key debates and their significance both within the field and in society.
6. Illustrates core concepts of the field while executing analytical, practical or creative tasks.
7. Selects and applies recognized methods of the field in interpreting characteristic discipline-based problems.
8. Assembles evidence relevant to characteristic problems in the field, describes the significance of the evidence, and uses the evidence in analysis of these problems.
9. Describes the ways in which at least two disciplines define, address and interpret the importance of a contemporary challenge or problem in science, the arts, society, human services, economic life or technology.

Intellectual Skills – Analytic Inquiry

10. Identifies, categorizes and distinguishes among elements of ideas, concepts, theories and/or practical approaches to standard problems.

Intellectual Skills – Use of Information Resources

11. Identifies, categorizes, evaluates and cites multiple information resources necessary to engage in projects, papers or performance in his or her program.

Intellectual Skills – Engaging Diverse Perspectives

12. Describes how knowledge from different cultural perspectives would affect his or her interpretations of prominent problems in politics, society, the arts and/or global relations.

Intellectual Skills – Communication Fluency

13. Presents accurate calculations and symbolic operations, and explains how such calculations and operations are used in either his or her specific field of study or in interpreting social and economic trends.
14. Presents substantially error-free prose in both argumentative and narrative forms to general and specialized audiences.

Applied Learning

15. Describes in writing at least one substantial case in which knowledge and skills acquired in academic settings are applied to a challenge in a non-academic setting; applies that learning to the question; and analyzes at least one significant concept or method related to his or her course of study in light of learning outside the classroom.
16. Locates, gathers and organizes evidence on an assigned research topic addressing a course-related question or a question of practice in a work or community setting; offers and examines competing hypotheses in answering the question.

Civic Learning

17. Describes his or her own civic and cultural background, including its origins and development, assumptions, and predispositions.
18. Describes diverse positions, historical and contemporary, on selected democratic values or practices, and presents his or her own position on a specific problem where one or more of these values or practices are involved.
19. Takes an active role in a community context (work, service, co-curricular activities, etc.), and examines the civic issues encountered and the insights gained from the community experience.

The Degree Qualifications Profile was adopted by CRDAP: April 11, 2012
