

North Central Michigan College Master Course Syllabus

PART 1:

Course Name: Beginning and Intermediate Algebra (Part II)

Course Number: MATH 112

Credit Hrs. 4 Lecture Hrs. 4 Lab Hrs. 0 Clinical Hrs. 0 Variable Hrs. 0

Total Hours of Instruction: 4 Total Contact Hours: 70.4
(Total Contact hour's formula: (lecture hrs. + lab hrs. + clinical hrs) x 17.6)

Course Description:

The second of two courses designed for the student placing into Beginning Algebra and needing Intermediate Algebra. The material covered includes rational expressions and equations, functions, quadratic equations, radicals and radical equations, absolute value equations and inequalities, and exponential and logarithmic equations. To complete the course outcomes for Intermediate Algebra, students must pass both Beginning and Intermediate Algebra Part I (MATH 110) and Beginning and Intermediate Algebra Part II (MATH 112).

Prerequisite (s): MATH 110 with a grade of "C" or higher.

Co-requisite (s): None

Course Objectives:

Upon completion of this course a successful student will be able to:

- Solve quadratic equations, rational equations systems of inequalities, and utilize these skills in critical thinking and problem solving applications.
- Simplify and solve mathematical models, functions, polynomials, rational expressions, radicals and logarithms.
- Recognize mathematical relationships and functions both implicit and explicit, and translate applications into mathematical equations.
- Produce an accurate graph to describe the mathematical relationship between variables.

Reasonable accommodations can be provided for students with documented disabilities. Please contact Learning Support Services to arrange for these (231)348-6687 or (231)348-6817, Room 533 SCRC.

North Central Michigan College Master Course Syllabus

PART 2:

Course Objectives and Linked Lumina DQP Outcomes

See **PART 3** of this syllabus for the complete language of each Lumina DQP outcome.

*Please identify the Lumina DQP outcome(s) supported by the course objectives. List each course objectives (from **PART 1**), followed by the corresponding Lumina DQP Outcome number(s) in parentheses.*

- Solve quadratic equations, rational equations systems of inequalities, and utilize these skills in critical thinking and problem solving applications. (DQP 2, 10, 13)
- Simplify and solve mathematical models, functions, polynomials, rational expressions, radicals and logarithms. (DQP 2, 13)
- Recognize mathematical relationships and functions both implicit and explicit, and translate applications into mathematical equations. (DQP 2, 10, 13)
- Produce an accurate graph to describe the mathematical relationship between variables. (DQP 2, 13)

North Central Michigan College Master Course Syllabus

Suggested Methods of Instruction:

Handouts, computer aided instruction lab, drill/practice and exercises.

Suggested Methods of Assessment and Evaluation:

Quizzes, comprehensive final exam, participation/class attendance and exercises.

Adopted Text at Time of Course Adoption/Revision:

Required: MyMathLab

OPTIONAL SUPPLEMENTARY MATERIALS: Introductory and Intermediate Algebra 4th edition by Blitzer

Topics Covered During the Semester:

Sequence of topics and time allowance are at the discretion of the instructor

Week 1	Rational Expressions and Equations
Week 2	Rational Expressions and Equations
Week 3	Rational Expressions and Equations /Functions and Graphs
Week 4	Functions and Graphs
Week 5	Functions and Graphs
Week 6	Inequalities and Absolute Value
Week 7	Inequalities and Absolute Value
Week 8	Inequalities and Absolute Value /Rational Exponents, Radicals, Complex Numbers
Week 9	Rational Exponents, Radicals, Complex Numbers
Week 10	Rational Exponents, Radicals, Complex Numbers
Week 11	Quadratic Equations and Functions
Week 12	Quadratic Equations and Functions
Week 13	Quadratic Equations and Functions /Exponential and Logarithmic Functions
Week 14	Exponential and Logarithmic Functions
Week 15	Exponential and Logarithmic Functions
Week 16	Review/Exam

Part 1 & Part 2 approved by CRDAP on: 12 04 15

North Central Michigan College Master Course Syllabus

PART 3:

LUMINA DQP OUTCOMES – Use this reference sheet for **PART 2** of Master Course Syllabus.

Specialized Knowledge

1. Describes the scope and principal features of the field of study, citing at least some of its core theories and practices, and offers a similar explication of at least one related field.
2. Illustrates contemporary terminology used in the field.
3. Generates substantially error-free products, reconstructions, data, juried exhibits or performances as appropriate to the field.

Broad Integrative Knowledge

4. Describes how existing knowledge or practice is advanced, tested and revised
5. Describes and examines a range of perspectives on key debates and their significance both within the field and in society.
6. Illustrates core concepts of the field while executing analytical, practical or creative tasks.
7. Selects and applies recognized methods of the field in interpreting characteristic discipline-based problems.
8. Assembles evidence relevant to characteristic problems in the field, describes the significance of the evidence, and uses the evidence in analysis of these problems.
9. Describes the ways in which at least two disciplines define, address and interpret the importance of a contemporary challenge or problem in science, the arts, society, human services, economic life or technology.

Intellectual Skills – Analytic Inquiry

10. Identifies, categorizes and distinguishes among elements of ideas, concepts, theories and/or practical approaches to standard problems.

Intellectual Skills – Use of Information Resources

11. Identifies, categorizes, evaluates and cites multiple information resources necessary to engage in projects, papers or performance in his or her program.

Intellectual Skills – Engaging Diverse Perspectives

12. Describes how knowledge from different cultural perspectives would affect his or her interpretations of prominent problems in politics, society, the arts and/or global relations.

Intellectual Skills – Communication Fluency

13. Presents accurate calculations and symbolic operations, and explains how such calculations and operations are used in either his or her specific field of study or in interpreting social and economic trends.
14. Presents substantially error-free prose in both argumentative and narrative forms to general and specialized audiences.

Applied Learning

15. Describes in writing at least one substantial case in which knowledge and skills acquired in academic settings are applied to a challenge in a non-academic setting; applies that learning to the question; and analyzes at least one significant concept or method related to his or her course of study in light of learning outside the classroom.
16. Locates, gathers and organizes evidence on an assigned research topic addressing a course-related question or a question of practice in a work or community setting; offers and examines competing hypotheses in answering the question.

Civic Learning

17. Describes his or her own civic and cultural background, including its origins and development, assumptions, and predispositions.
18. Describes diverse positions, historical and contemporary, on selected democratic values or practices, and presents his or her own position on a specific problem where one or more of these values or practices are involved.
19. Takes an active role in a community context (work, service, co-curricular activities, etc.), and examines the civic issues encountered and the insights gained from the community experience.

The Degree Qualifications Profile was adopted by CRDAP: April 11, 2012
